

The Spring Hill Library is launching a new online catalog just in time for Summer Reading!

LS2 is user-friendly, visually dynamic, and works on any screen or device. In-depth book recommendations and series lists will make it easier to find books you will love, and there is a special online catalog just for kids!

The library will be closed for implementation and training in this new system from May 20-22, 2019. LS2 will be available starting Thursday, May 23, 2019.

We are very excited about this switch that we believe will greatly improve your online library experience!

Please note: Reading histories that were tracked in our current system will not transfer to LS2. Please make sure you print out a copy of your history by Friday, May 17th if you do not want to lose it. You will have the option to track your fresh reading history in LS2.
