RESOLUTION 96-55

A RESOLUTION TO BID AND AWARD CONTRACT
FOR THE DISMANTLEMENT, TRANSPORT, AND
TEMPORARY STORAGE, AT A SITE IN SPRING HILL,
OF A 250,000 GALLON USED WATER STORAGE TANK
FROM PREMISES LOCATED IN FRANKLIN, TENNESSEE

Whereas, there exists a 250,000 gallon tank available at no cost on property owned Calvin Lehew, Franklin, Tennessee;

Whereas, Spring Hill can utilize this tank to provide pressure to the south side of Spring Hill in the developments now located in the areas served by Kedron Road and Mahlon Moore Road plus the Tom Lunn Road areas as are planned to be added to this water service zone;

Whereas, two alternatives exist to insure adequate pressure and a fire fighting water supply and the storage tank is more economical than the construction of a larger line down Kedron Road;

Whereas, a hill site will be made available by Joe High, developer of Stonegate subdivision for the tank.

BE IT THEREFORE RESOLVED BY THE BOARD OF MAYOR AND ALDERMEN OF THE TOWN OF SPRING HILL, TENNESSEE that:

A surplus 250,000 gallon ground level water tank will be accepted as a donation from Calvin Lehew of Franklin, TN and will be, on public bid and contract, dismantled, removed from the Lehew site and temporarily stored on a site owned by Joe High in Spring Hill, in order to later reconstruct the water tank on that site to provide both water pressure and water storage for areas on the south side of Spring Hill. The dismantlement, removal, and temporary storage of the tank will be accomplished within a year of the date of this Resolution at a cost not to exceed $18,000.00 to be paid by direction of the Mayor and City Administrator out of any of the following sources: water fund, water depreciation expense, impact fees, water and sewer connection fees.

Passed and adopted by the Board of Mayor and Aldermen of the Town of Spring Hill, Tennessee on the 19th day of August, 1996.

RON HANKINS, MAYOR
