A diverse Board with a variety of interests and skills provides a broad base of knowledge for decision-making. What training, experience, or special skills would you bring to the Library Board to assist in planning, policy, legal, legislative, or financial decisions?

With an education in history and journalism, I have a long-time interest the place of libraries in our society.

As a reporter I've worked with Librarians as they strive to relate their message and needs to the public.

As a business owner I understand about budgeting, human resource management, legal issues, and more.

Why do you wish to serve on the Library Board?

I am interested in serving on the library board because I believe strongly in the importance of the library in a small and growing community, in the resource it can be for citizens from all walks of life, and I wish to be part of assuring that our library continues to look forward in serving the needs of the community.

If appointed to the Library Board, what would you like to see accomplished during your term?

I believe our library does a fairly good job of offering services for children and adults. Ours is a young community and service to children is important.

I would like, however, to see the library better publicize its adult programs and build a stronger community of adults interested in the library.

What do you think the Library's most important roles are for the community?

The library can be the center of culture in a small community. It can be a gathering spot for children and adults.

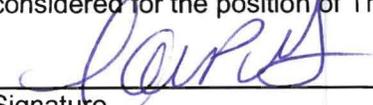

What are some problems and challenges facing libraries?

The digital age and funding are probably the largest challenges for libraries, combined with qualified staff leadership to meet the challenges.
