Purchase Evaluation Form**

Department: Wastewater Treatment Plant

Presented By: Travis Massey

Date: 6/6/2013

Department Budget Status:

- I. Purpose/Overview of Purchase:** I need these utility vehicles to use for collecting samples, transporting equipment from the front of the treatment plant to the back of the treatment plant, and for the use of the maintenance worker to transport tools to the area of the plant where he is working.

- II. Background Information:** We currently have one utility vehicle with the expansion of our plant we need two more to cut down on the use of city vehicles.

- III. Financial Impact to Budget:** We had money set aside for trailers that we did not end up needing to buy this year.

- IV. Alternative Options:** Our alternative options include the use of city vehicles or run the risk of injury to employees carrying heavy equipment back and forth to their working area.

- V. Staff Recommendations:**
