**PURPOSE:**

October 31<sup>st</sup>, 2013 a light pole fell during a storm at the Evans Park ballfields.

**BACKGROUND:**

Columbia Power was on site after the incident as the pole fell onto their power lines. Columbia power employees indicated a second pole is in poor condition and needs to be replaced as it is in danger of falling.

Quotes were difficult to find a company that could set an 80' pole. The first quote was to replace the one wood pole only. A second company was able to quote concrete poles for a cheaper cost. The total cost to replace both poles with concrete poles, reattach the light fixtures and make all electrical connections is \$14,400.00. Insurance will cover \$7,000 of the cost.

**FINANCIAL IMPACT:**

\$7,400 will be added for consideration on the budget amendment.

**STAFF RECOMMENDATION:**

Favorable Recommendation

**ACTION REQUIRED (INCLUDE DEADLINE /PRIORITY):**

Contractor has the poles in stock and ready to perform the work immediately. Currently the power at Evans Park is off and will be turned back on by Columbia Power once the lights are replaced.
