We hereby submit specifications and estimates for:

We will sawcut the existing concrete bands as necessary, remove the pavers down to the concrete, clean off the concrete, tack, and then lay 2 inches Hotmix Binder (B-M2 Mix) and 1 1/2 inches Hotmix Surface (E-Mix) on the areas where the pavers have been removed for a Lump Sum of \$138,250.00.

- NOTES:
1. SPC's price includes necessary traffic control.
 2. The pavers will be hauled to and dumped at a site provided by Spring Hill Public Works.
 3. Spring Hill Public Works will caulk the joints between the gutter and the curb per our discussion.
 4. After the pavers have been removed and prior to placing the 2" of Hotmix Binder and 1 1/2" of Hotmix Surface SPC will repair any failed areas by excavating and placing A-Mix for an additional charge of \$156.00 per Ton. We would estimate 50-100 Tons may be required for these repairs.
