

RESOLUTION 15-309

TO AMEND RESOLUTION 15-305 TO APPROVE LAND ACQUISITION PURCHASE FOR TRACT 198 OF THE DUPLEX ROAD WIDENING PROJECT

WHEREAS, the City of Spring Hill is in the process of widening Duplex Road;
and

WHEREAS, in order to complete the project, the City must acquire land in the
form of right of way and easements from property owners along Duplex Road; and

WHEREAS, the City is working with Tennessee Department of Transportation
on this project, known as State Project Number 60LPLM-F2-019 and Federal Project
Number STP-M-247(9); and

WHEREAS, Resolution 15-309 amends Resolution 15-305 previously passed on
the 3rd day of August, 2015 to now include closing costs to be paid by the City; and

WHEREAS, the cost of the acquisition will be \$1,800.00 to the tract owner
(Andrew C. & Natalie Long) and \$500.00 to the closing agent (Southeast Title of
Tennessee, Inc.) for closing costs; and

NOW THEREFORE, BE IT RESOLVED that the City of Spring Hill, Board of
Mayor and Aldermen authorizes a total land acquisition purchase in the amount of
\$2,300.00, to Southeast Title of Tennessee, Inc., 40 Middleton Street, Nashville, TN
37210 for Tract number 198 of the Duplex Road widening project.

Passed and adopted this 8th day of September, 2015.

Rick Graham, Mayor

ATTEST:

April Goad, City Recorder

LEGAL FORM APPROVED:

Patrick Carter, City Attorney

Date: September 4, 2015

To: Spring Hill Board of Mayor and Aldermen

From: Missy Stahl

Re: Duplex Road Land Acquisitions

In addition to the City paying a tract owner the cost of the land acquisition, the City is also responsible for paying closing costs (to include prorated property taxes, filing fees, bank fees, etc.). Per the closing agent (Brent Campbell with Southeast Title of Tennessee, Inc.), some of the costs can vary from tract to tract. Therefore, he has suggested a closing amount of \$500 per tract.

At the time of the actual closing, the City will be notified if our payment of \$500 is accurate. If there is an overpayment, we will be issued a refund check for the overage. If more is owed, the City will need to issue another check to cover the shortfall.

If you have any further questions, please contact me and I will address any concerns you might have.

Sincerely,

Missy Stahl

**AGREEMENT OF SALE
CITY OF SPRING HILL
MAURY COUNTY, TENNESSEE**

PROJECT <u>Duplex Road Widening</u>	ADDRESS <u>2915 Sams Court, Spring Hill, TN</u>
FEDERAL PROJECT # <u>STP-M-247(9)</u>	MAP/PARCEL <u>166P-A/012.00</u>
STATE PROJECT # <u>60LPLM-F2-019</u>	TRACT # <u>198</u>

This agreement entered into on this the 27th day of July, 20 15
Between Andrew C. & Natalie Long, herein after called the Seller and the City of Spring Hill, shall continue
for a period of 90 days under the terms and conditions listed below. This Agreement embodies all
considerations agreed to between the Seller and the City of Spring Hill.

- A. The Seller hereby offers and agrees to convey to the City of Spring Hill lands identified as Tract # 198 on the right-of-way plan for the above referenced project upon the City of Spring Hill tendering the purchase price of \$1,800, said tract being further described on the attached legal description.
- B. The City of Spring Hill agrees to pay for the expenses of title examination, preparation of instrument of conveyance and recording of deed. The City of Spring Hill will reimburse the Seller for expenses incidental to the transfer of the property to the City of Spring Hill. Real Estate Taxes will be prorated.

The following terms and conditions will also apply unless otherwise indicated:

- C. Retention of Improvements: () Does not retain improvements () Not applicable (x)
Seller agrees to retain improvements under the terms and conditions stated in the attached agreement to this document and made a part of this Agreement of Sale.
- D. Utility Adjustment Not applicable (x)
The Seller agrees to make, at the Seller's expense, the below listed repair, relocation or adjustment of utilities owned by the Seller. The purchase price offered includes \$ -0- to compensate the owner for those expenses.
- E. Other
- F. The Seller states in the following space the name of any Lessee of any part of the property to be conveyed and the name of any other parties having any interest in any kind of said property:

Seller: _____

Seller: _____

(24)COMMENTS & EXPLANATIONS AS NECESSARY

According to the appraiser, the three-rail wood fencing in the acquisition area was originally constructed by the developer of the neighborhood. This improvement is located on the subject tract and is not maintained by the Homeowners Association. It is assumed it is appropriate to pay the landowner for this item. Please note, however, the reviewer recommends a title report in order to accurately assess this situation. Please note the right-of-way plans have the previous owner listed as the owner. The owner as indicated by the appraisal report of Mr. Button and the title report appear to be accurate and are utilized within this review assignment and Form 2.

APPRAISAL REVIEW REPORT

(RIGHT OF WAY ACQUISITION)

This appraisal review has been conducted in accordance with the Scope of Work Rule and Standard 3 of the *Uniform Standards of Professional Appraisal Practice*, as promulgated by the Appraisal Foundation. This review and this review report are intended to adhere to the Standard 3 in effect as of the date of this review was prepared. The appraisal and appraisal report have been considered in light of the Standards 1 & 2 in effect as of the date the appraisal was prepared - not necessarily the effective date of valuation.

The purpose of this technical review is to develop an opinion as to the compliance of the appraisal report identified herein to the *Uniform Standards of Professional Appraisal Practice*, the *Uniform Relocation Assistance & Real Property Acquisition Act*, and the Tennessee Department of Transportation's *Guidelines for Appraisers*; and further develop opinions as to the completeness, accuracy, adequacy, relevance, reasonableness, and appropriateness of opinions presented in the appraisal report as advice to the acquiring agency in its development of a market value offer to the property owner. This review is conducted for the Tennessee Department of Transportation and is the intended user.

City of Spring Hill

All estimates of value prepared for agency acquisitions shall be based on "market value" - as defined and set forth in the Tennessee Pattern Jury Instructions to wit: "the amount of money which a purchaser, willing but under no compulsion to buy, would pay, and which a seller, willing but under no compulsion to sell, would accept, taking into consideration all the legitimate uses to which the property was adaptable and might in reason be applied." Compensations are in compliance with the Tennessee State Rule.

Section (A) Identification & Base Data:

(1) State Project Number: 60LPLM-F2-019 (2) County: Williamson (3) Tract No.: 198

STANDIFER & ASSOCIATES, INC.

- (15) Ownership Position & Interest Appraised: (Unless indicated herein to the contrary, the appraisal is of a 100% ownership position in fee simple. (Confirm 100% or state the specifics otherwise.))
- Ownership Position & Interest Appraised is Fee Simple according to Appraisal Report, Right-of-Way Plans and Title Report.**
- (16) Scope of Work in the Performance of this Review: (Review must comply with all elements and requirements of the Scope of Work Rule and Standard 3 of USPAP, and must include field inspection (at least an exterior inspection of the subject property and all comparable data relied on in the appraisal report.)) **Development of an independent estimate of value is not a part of this review assignment.**

Upon receipt of the appraisal report, all comparable sales were visually inspected from the public right of way and confirmed using available data services (CRS data and actual courthouse records). Additionally, narrative descriptions (in the Market Data Brochure) of the subject neighborhood/market area were reviewed for accuracy. A field review of the subject property was conducted to verify the descriptions in the appraisal report and to more closely inspect the areas being directly affected by the proposed acquisition. Analyses and conclusions contained within the appraisal report were also reviewed as to their applicability to the subject property, the area being acquired, and to the impact, if any, on the remainder property. Additionally, a search was conducted using the information services noted above to see if any comparable sales had been overlooked by the appraiser. Additionally, listings on the project and in the general area were collected and inspected. The plans and cross sections were obtained from the City of Spring Hill. These plans have been reviewed and compared to the plans and cross sections included and/or referenced in Mr. Button's appraisal report. It is assumed the plans provided by the City of Spring Hill are the most current plans available as of the date of this appraisal review. Having reviewed the appraisal report and available data, this review report has been completed by the review appraiser.

Section (B): Property Attributes:

- (1) Total Tract Size as Taken From the Acquisition Table: 0.281 Acres (s)
- (2) Does the Appraisal Identify One or More "Larger Parcels" That Differ in Total Size From the Acquisition Table? (If "Yes," what is it and is it justified?)(Explain)(Describe Land)
- No.**
- (3) List/Identify Affected Improvements (If appraisal is "Formal," then all improvements must have been described in the appraisal report and must be listed here. If the appraisal is "Formal Part-Affected," then only those affected improvements should have been described in the appraisal report and listed here.) Listing by Improvement Number & Structure Type is adequate here.)

Comments: FPA - Assignment

Section (G) Review Comments

“Before” & “After” Valuation (include Comments for “NO” Responses to Questions 1 - 7 & “YES” Response to Question 8).

(1) Are the conclusions of highest and best use (before & after) reasonable and adequately supported?

Conclusions of highest and best use in the before and after situations appear reasonable and adequately supported. FPA - Assignment.

(2) Are the valuation methodologies (before & after) appropriate?

Valuation methodologies used by the appraiser in the before and after situations are adequate. FPA - Assignment.

(3) Are the data employed relevant & adequate to the (before & after) appraisal problems?

Data employed by the appraiser appears to be relevant and adequate to the before and after situations appraisal problem. FPA - Assignment.

(4) Are the valuation techniques (before & after) appropriate and properly applied?

The valuation techniques in the before and after situations were adequate. FPA - Assignment.

(5) Are the analyses, opinions, and conclusions (before & after) appropriate and reasonable?

Analyses, opinions and conclusions in the before and after situations appear appropriate. FPA - Assignment.

(6) Is the report sufficiently complete to allow proper review, and is the scope of the appraisal assignment broad enough to allow the appraiser to fully consider the property and proposed acquisitions?

The submitted FPA report is sufficiently complete to allow proper review. The scope of this assignment is broad enough to allow the appraiser to fully consider the property as appraised and the proposed acquisition.

(7) Is the appraisal report under review generally compliant with *USPAP*, the *Uniform Act*, and TDOT's *Guidelines for Appraisers*?

The submitted appraisal report appears to be generally compliant with USPAP, the Uniform Act, and TDOT's Guidelines for Appraisers. Please note this was an FPA - Assignment.

(8) Do the general and special “Limiting Conditions and Assumptions” outlined in the appraisal report limit the valuation to the extent that the report cannot be relied on for the stated use?

The general and special “Contingent and Limiting Conditions” in the submitted appraisal report do not limit the appraiser's valuation of the subject property. FPA - Assignment.

- ☒ I DO Recommend Approval of this Report
- ☐ I DO NOT Recommend Approval of this Report

Comments:

Mr. Button's value conclusions are approved for the purpose of negotiation. According to the appraiser, the three-rail wood fencing in the acquisition area was originally constructed by the developer of the neighborhood. This improvement is located on the subject tract and is not maintained by the Homeowners Association. It is assumed it is appropriate to pay the landowner for this item. Please note, however, the reviewer recommends a title report in order to accurately assess this situation. Please note the title report provided does not clarify or reference this particular item. Please note the right-of-way plans have the previous owner listed as the owner. The owner as indicated by the appraisal report of Mr. Button and the title report appear to be accurate and are utilized within this review assignment and Form 2.

Additional Comments:

The reviewer received an electronic copy of Tract 198 report submitted by Mr. Button. Corrections and/or revisions to the appraisal were requested and submitted by Mr. Button in the form of electronic copy Revised Appraisal Report. It is assumed appraisal reports submitted to the City of Spring Hill incorporate any requested corrections and/or revisions which were subsequently made to the appraisal report at the request of the reviewer. The reviewer has printed the most recent appraisal report and retains it in the file for Tract 198.

Section (H) Certification

I certify to the best of my knowledge and belief:

The statements of fact contained in this report are true and correct.

The reported analyses, opinions and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions and conclusions.

I have no present or prospective interest in the property that is the subject of the work under review and no personal interest with respect to the parties involved.

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of the work under review within the three-year period immediately preceding acceptance of this assignment.

I have no bias with respect to the property that is the subject of the work under review or to the parties involved with this assignment.

My engagement in this assignment was not contingent upon developing or reporting predetermined results.

My compensation is not contingent on an action or event resulting from the analyses, opinions, or conclusions in this review or from its use.

My compensation for completing this assignment is not contingent upon the development or reporting of predetermined assignment results or assignment results that favors the cause of the client, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal review.

My analyses, opinions and conclusions were developed and this review report was prepared in conformity with the *Uniform Standards of Professional Appraisal Practice* (USPAP). In addition, my analyses, opinions and conclusions were developed and this report has been prepared in conformity with the requirements of the *Code of Professional Ethics* and the *Standards of Professional Practice of the Appraisal Institute*.

I did personally inspect the exterior of the subject property of the work under review.

No one provided significant appraisal or appraisal review assistance to the person signing this certification.

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

As of the date of this report, Gary R. Standifer has completed the continuing education program of the Appraisal Institute.

Section (I) Limiting Conditions & Assumptions

This appraisal review report has been made with the following general limiting conditions and assumptions:

- (1) Unless stated herein to the contrary, it is specifically assumed that the author of the appraisal report under review made the required contact with the property owner, and conducted the appropriate inspections and investigations.
- (2) Unless stated herein to the contrary, it is specifically assumed that the right-of-way plans upon which the appraisal was based are accurate.
- (3) Unless stated herein to the contrary, it is specifically assumed that all property (land & improvement) descriptions are accurate.
- (4) Unless stated herein to the contrary, no additional research was conducted by the review appraiser.
- (5) Unless stated herein to the contrary, all specific and general limiting conditions and assumptions outlined in the appraisal report submitted for review are adopted herein.

APPRAISAL REPORT
CITY OF SPRING HILL, TENNESSEE

THE PURPOSE OF THIS APPRAISAL IS TO ESTIMATE THE FAIR MARKET VALUE FOR HIGHWAY RIGHT-OF-WAY PURPOSES

1. Name, Address & Telephone Numbers:

(A) Owner: Andrew C. & Natalie Long
2915 Sams Court
Spring Hill, TN 37174

(B) Tenant: Owner Occupant
720-621-2488

(C) Address and/or location of subject: 2915 Sams Court, Spring Hill, Williamson County, TN

2. Detail description of entire tract:

The subject site is a rectangular shaped site with 74.94 rear feet fronting the south side of Duplex Road and a depth of 163.23 feet, containing 0.281 acres or 12,240 SF. The property is level with a slight slope coming from the present right-of-way. The site is improved: Improvement 1 is landscaping, Improvement 2 is 3-rail wooden fencing, and Improvement 3 is a single unit residential dwelling.

3. (A) Tax Map and Parcel No. 166P-A-012.00 (B) Is Subject in a FEMA Flood Hazard Area? Yes ☐ No ☒
If yes, Show FEMA Map/Zone No. _____

4. Interest Acq.: Fee ☐ Drainage Easement ☐ Construction Easement ☒ Slope Easement ☐ Other: _____

5. Acquisition: Total ☐ Partial ☒

6. Type of Appraisal: Formal ☐ Formal Part Affected ☒

Intended Use of Report – This “Formal Part-Affected” appraisal of a 100% ownership position is intended for the sole purpose of assisting the City of Spring Hill, Tennessee in the acquisition of land for right-of-way purposes. This appraisal pursuit excludes those property elements (land and/or improvements) that are not essential considerations to the valuation solution.

This is an appraisal report, which is intended to comply with Standard Rule 2-2(a). As such, it presents only summary discussions of the data, reasoning and analysis that were used in the appraisal process. Supporting documentation that is not provided within the report is retained in the appraiser’s work file or can be obtained from the Market Data Brochure. The depth of discussion contained in this report is specific to the needs of the client.

7. Detail Description of land acquired:

Construction Easement

The plans also call for a construction easement containing 577 SF, in effect renting this portion for 3 years (length of construction). The construction easement strip of land running parallel with the right-of-way that ranges from approximately 7-10 foot wide providing silt control or work space for the road contractors.

8. Sales of Subject: (Show all recorded sales of subject in past 5 years; show last sale of subject if no sale in past 5 years.)

State Project No. 60LPLM-F2-019 County Maury and Williamson Tract No. 198
Federal Project No. STP-M-247 (9) Name of Appraiser Randy Button, MAI, SRA, AI-GRS (CG#03)

ADDITIONAL COMMENTS

9. Highest and Best Use: *Before Acquisition*(If different from existing make explanation supporting same.)

In order to estimate an opinion of value for the subject property we needed to determine the highest and best use or "the reasonably probable use of property that results in the highest value" (definition of *highest and best use* in The Appraisal of Real Estate, 14th ed. Chicago: Appraisal Institute 2013, page 332).

The larger parcel issue is the first step in condemnation valuation. Larger parcel includes three considerations: unity of ownership, contiguity, and unity of use. Larger Parcel is an assemblage issue and not a highest and best use analysis. I feel the Larger Parcel is Tract 198 in its entirety.

Considering subject as a Larger Parcel, it is important to identify the conditions that are "reasonably probable" including what is (1) legally permissible on the site, (2) physically possible, and (3) financially feasible. In testing the economic productivity of the site I was able to identify what is (4) maximally productive, and therefore the highest and best use.

(1) Looking at the subject property prior to the proposed acquisition, I found the site to be zoned Medium Density Residential District (R2). R2 districts allow for single-unit residential dwellings with good access to public utilities and facilities. Buildable sites must have a minimum lot area of 10,000 square feet. Restrictions for the Pipkin Hills Subdivision require a minimum total floor area of 1,200 square feet and the R2 zoning allows a maximum total building area of 35% of the site size. The zoning classification allows for multiple stories and the Restrictions for Pipkin Hills Subdivision requires a minimum first floor area of 800 square feet for a 1.5 to 2 story residential dwelling. Additionally, no private restrictions, historic controls, or environmental regulations were found to preclude what is permissible under the existing zoning classification. The Spring Hill Comprehensive Plan (June 2011) suggest a Suburban Neighborhood Use for the site. Therefore, I believe reclassification of the site into a classification inconsistent with the current zoning designation is not probable.

(2) Considering the physically possible land attributes, I found that the site had 74.94 LF of existing frontage with a depth of approximately 163.23 LF. The site was considered to be level and suitable for residential development. The site also has public water, sewer, gas, electric, and telephone utilities in place and is not located in the flood zone according to FEMA flood maps making a residential use physically possible.

(3) In determining uses for the site that meet both the legally permissible and physically possible criteria, I narrowed the potential uses that would be financially feasible. Considering the high rental rates in the area, low number of days on the market, and the volume of construction of single unit residential dwellings, I believe the development of a single unit residential unit would appear to be a viable and attractive use for the land. Considering the fact that the neighborhood itself is not in a period of regeneration and redevelopment, new residential construction could be appealing to a developer. Therefore, I believe that a residential use for the land provides the highest land value commensurate with the development cost associated with the market's acceptance of risk. The total area for the site was 12,240 SF which would allow for the development of a residential dwelling with a minimum of 1,200 square feet and a maximum of 4,284 square feet. This permissible range of gross living area is adequate to justify such development. I believe the most appealing uses for the site, considering its access and visibility, is for the site to be developed with a single unit residential dwelling.

(4) Considering the subject site's location and legal constraints, its only practical use is for the land to be developed with a residential use. Considering the preceding factors, I conclude that the *highest and best use* of the subject site, as if vacant, is for the land to be developed with a single unit residential dwelling.

Highest and Best Use As-Improved:

The subject property is currently improved with a single unit residential dwelling that appeared in average condition. After considering the possible alternative uses for the existing facility, I am of the opinion that the existing single unit residential dwelling represents the highest and best use to the land and improvements.

This Appraisal Is Based On Original Plans	X	Or Plan Revision	Dated: March 1, 2013
---	---	------------------	----------------------

State Project No.	60LPLM-F2-019	County	Maury and Williamson	Tract No.	198
Federal Project No.	STP-M-247 (9)	Name of Appraiser	Randy Button, MAI, SRA, AI-GRS (CG#03)		

OTHER IMPROVEMENTS

11.

Structure No.	1	No. Stories	N/A	Age	N/A	Function	Landscaping
Construction	Bradford Pear	Condition	Medium	Sq. Ft. Area	N/A		
Reproduction Cost	\$750	Depreciation	\$0	Indicated Value \$	\$800 [R]		

OTHER COMMENTS AND EXPLANATION OF REPRODUCTION COST AND DEPRECIATION:

The subject site has five Bradford Pear trees that is located within the slope easement. The trees were considered to be mature and medium in size. I estimate the value of these trees as follows:

$$5 \text{ Trees} \times \$150/\text{Each} = \$750 = \text{\$800 Rounded}$$

Structure No.	2	No. Stories	N/A	Age	7 EA	Function	Fencing
Construction	3-Rail Wood/Painted	Condition	Fair	Linear Ft.	55		
Reproduction Cost	\$495	Depreciation	\$232	Indicated Value \$	300 [R]		

OTHER COMMENTS AND EXPLANATION OF REPRODUCTION COST AND DEPRECIATION:

Improvement 2 is a 3-rail wooden fence in fair condition. The fence was originally constructed by the developer of the neighborhood and the improvement is not located on or maintained by a homeowners association. Therefore, the fence is considered to be the property of Mr. Corbin. According to Franklin Fence and Deck company a similar fence has a replacement cost of \$9/LF and an estimated economic life of 15-years. The subject fence is considered to have an effective age of 7 years (depreciation of 47%). The value of this improvement was calculated as follows:

$$\$9/\text{LF} \times 55 \text{ LF} = \$495 \text{ cost new} - \$232 \text{ depreciation } (\$495 \times 47\% \text{ dep.} = \$232) = \$263 \text{ "as is"} = \text{\$300 Rounded}$$

Structure No.		No. Stories		Age		Function	
Construction		Condition		Sq. Ft. Area

INDICATED VALUE OF SUBJECT LAND:

Comments:
The range of values per Lot for the three sales used were from: \$46,119 to \$50,300 per Lot.
The mean value based upon the sales applied to this analysis is \$47,871. The most weight was given to the mean value.

ADDITIONAL COMMENTS

14. LAND VALUE ANALYSIS: (Continued from preceding page.....)

My research uncovered a number of vacant land sales around the subject property. The sales used in this analysis are located within Maury County. Sales in Williamson County were researched due to some sales having similar lot sizes to the subject tract. I determined the Williamson County sales were less similar to the subject than the sales that occurred within Maury County. However, I did find a clear trend on how the size has a direct impact on lot value within Spring Hill. The following chart illustrates these findings:

	Lot Price	RL-17: (7,586 SF)	RL-18: (10,390 SF)
RL-17: (7,586 SF)	\$65,000	--	(7.69%)
RL-18: (10,390 SF)	\$70,000	7.69%	--
RL-20: (12,563 SF)	\$75,000	15.38%	7.14%

The chart above shows a 7.69% difference between sale RL-17 and RL-18 and a 7.14% difference between sale RL-17 and RL-20. Therefore, the sales data indicates an approximate 7.5% difference in lot values between the next closest tier. The tiers appear to be (A) up to 8,999 square foot lots, (B) 9,000 square foot lots up to 10,999 square foot lots, and (C) 11,000 square foot lots and up. The percentage in price change between A-B or B-C is estimated to be 7.5% and the percentage price change between A-C appears to be approximately 15%.

The subject tract was designed just before the year 2000. At this time, newly subdivided lots within Maury County are not as large as the subject tract. This appears to be a trend toward increased density. There is typically a trend within subdivisions for larger lots, especially cul-de-sac lots or lots that adjoin greenspace, to command higher lot values. Therefore, all three sales were adjusted upward for their inferior size. Sale RL-8 was adjusted upwards 15% after the time adjusted value and sales RL-9 and RL-13 were similarly adjusted upwards by 7.5% of their time adjusted value. Each adjustment was subsequently rounded.

The Royalton Woods Subdivision consistently has lot sales that are approximately 15% below the lot values of several other Maury County subdivisions in very close proximity to the subject. These value differences are evident between the Royalton Woods subdivision and the following: Reserve at Port Royal, Port Royal Estates, and the Laurals at Town Center. The primary difference between these sales is location. The Royalton Woods subdivision is located further from retail locations and in a more rural setting off Kedron Road. This inferior linkage to the subdivisions considered more similar to the subject tract resulted in an upward 15% adjustment to Sale RL-13.

After adjustments, the indicated lot values of the three sales ranged from \$46,119 to \$50,300 and exhibited a mean indication of \$47,871 per lot. The subject lot value should fall near the mean value of the three adjusted sales. Therefore, I believe an appropriate estimate of land value for the subject site would fall near \$48,000/Lot. Calculated as follows:

Subject Lot Value: \$48,000

Subject Square Foot Value: \$3.92
(\$48,000/Lot ÷ 12,240 SF = \$3.92/SF)

Note: The square foot value of the subject site will be applied in the following analysis because this reflects the unit measurement being applied to the acquisition areas.

CITY OF SPRING HILL, TENNESSEE

ITEM 17. EXPLANATION and/or BREAKDOWN OF LAND VALUES

(A) VALUATION OF LAND:

LAND	1 Lot	S.F.	☐	F.F.	☐	Acre	☐	Lot	☒	@	\$48,000	(Average) Per Unit	=	\$48,000
LAND		S.F.	☐	F.F.	☐	Acre	☐	Lot	☐	@		(Average) Per Unit	=	\$0
LAND		S.F.	☐	F.F.	☐	Acre	☐	Lot	☐	@		(Average) Per Unit	=	\$0
LAND		S.F.	☐	F.F.	☐	Acre	☐	Lot	☐	@		(Average) Per Unit	=	\$0
												Total		\$48,000

REMARKS: The value indication for the subject land was rounded to \$48,000.

18. APPROACHES TO VALUE CONSIDERED:

(A) Indicated Value of	☐ Entire Tract	☒ Part Affected	from SALES COMPARISON APPROACH	\$48,000
(B) Indicated Value of	☐ Entire Tract	☐ Part Affected	from COST APPROACH	N/A
(C) Indicated Value of	☐ Entire Tract	☐ Part Affected	from INCOME APPROACH	N/A

RECONCILIATION: (Which approaches were given most consideration?)(Single-point conclusion should be reasonably rounded)

For the purpose of valuing the subject property the Sales Comparison Approach was processed. The Income Capitalization Approach has been considered, however, it has not been processed within this report because most vacant residential land in the market are not leased. The value indication by the Sales Comparison Approach was \$48,000. In Item 11 of the report, two improvements were calculated to have a value of \$1,100. The value of the improvements in Item 11 were added to the land value calculated in the Sales Comparison Approach for a combined value of \$49,100. The three sales used in this analysis were considered comparable to the subejct in terms of overall market appeal. All three sales were slightly smaller than the subject site. However, ample market data supports the appropriate size adjustments to these sales. Therefore, I estimate the value for the subject property and the effected improvements to be near \$49,100.

19. FAIR MARKET VALUE	of	☐ Entire Tract	☒ Part Affected	\$49,100
(A) TOTAL AMOUNT DUE OWNER	if	☐ Entire Tract	☒ Part Affected Acquired	\$

TOTAL REMAINDER VALUE OF LAND.....										\$47,319

B. IMPROVEMENTS REMAINING	Before Value	Damages		Remaining Value
		%	\$	
REMAINDER VALUE OF IMPROVEMENTS.....				\$0
LESS FENCING ACQUIRED.....				\$0
TOTAL REMAINDER VALUE OF LAND AND IMPROVEMENTS.....				\$47,319
TOTAL REMAINDER VALUE OF LAND AND IMPROVEMENTS (ROUNDED).....				\$47,300

REMARKS:

* 20A: The value of the construction easement has been estimated based on +/- 30% of the fee value. See Item 24 for further explanation.

SUMMARY OF REMAINDER

APPRAISERS DESCRIPTION OF REMAINDER AND EXPLANATION OF DAMAGES OR BENEFITS

(Supplement to Items 20 and 21, Pages 2A-8)

23. HIGHEST AND BEST USE AFTER ACQUISITION:

(1) Upon Completion of the proposed road project, the subject site will still be zoned R2, with nothing found to preclude what is permissible under the existing zoning classification. The Spring Hill Comprehensive Plan (adopted June 2011) suggest a Suburban Neighborhood Use for the site. Therefore, I believe reclassification of the site into a classification inconsistent with the existing classification is not probable.

(2) Considering the physically possible land attributes I found the site post-construction to have 74.94 LF of rear frontage with a depth of approximately 163.23 LF. The site was considered to be level and suitable for a single unit residential development. Post-construction, the site will not be impacted other than the loss of improvements 1 and 2. The site is only impacted by a construction easement and the size of the tract and slope of the land will remain unchanged post-construction. Therefore, the proposed changes are not expected to change the site's overall utility of present use. The site also has public water, sewer, gas, electric, and telephone utilities in place and is not located in the flood zone according to FEMA flood maps, making a residential use physically possible.

(3) In determining uses for the site that meet both the legally permissible and physically possible criteria, I narrowed the potential uses that would be financially feasible. I believe a residential use for the land provides the highest land value commensurate with the development cost associated with the market's acceptance of risk. The total area for the site post-construction will be 12,240 SF, which is adequate for the development of a residential building.

(4) Considering the subject site's location and legal constraints, the only practical use is for the land to be developed with a single unit residential dwelling. Considering the preceding factors, it is concluded that the *highest and best use* of the subject site, as if vacant, is for the land to be developed with a single unit residential dwelling.

Highest and Best Use As-Improved:

The subject property is currently improved with a single unit residential dwelling that is in average condition. After considering the possible alternative uses for the existing facility, I am of the opinion that the existing single unit dwelling represents the present highest and best use of the site in the present "as is" condition.

24. DESCRIBE REMAINDER (S):

The remainder will have essentially the same shape and topography as before the acquisition. The acquisition area does not reduce the area and it will remain +/- 100 % of the land area before construction. The only acquisition is the temporary rent of the construction easement containing 577 SF.

Post construction, the rear lot will continue to backup to Duplex Road. The new roadway will have two traffic lanes plus a center turning lane (12 feet wide/each), making the new roadway approximately 36 feet wide. The right-of-way will generally be located approximately 19 LF from the asphalt along the north side of the road (project left) and will have a 9 LF wide shared-use path. The right-of-way will be located approximately 12 LF from the asphalt along the south side of the road (project right) and will have a 5 LF wide sidewalk. Each side of the road will have a concrete curb and gutter system which will capture rainwater runoff and dispose of the water without causing issues to any existing or potential improvements. Slope easements along the entire project are not to exceed a 2:1 ratio.

The remainder will have a depth of 163.23 LF and the present and proposed right-of-way will be located approximately +/- 76 LF from the closest living wall of the subject's single unit residential dwelling. Present zoning for the subject property calls for a minimum rear setback of 25 LF. The subject property is considered to comply with this setback. Damages are not considered appropriate and are not applied to the remaining site or remaining improvements since the improvements are legally conforming.

As shown in the following chart, the new roadway will generally be above the present grade of the road. Post construction the site will contain 12,240 SF and be zoned R2 District, which allows for the development of a single unit residential dwelling on the remainder site. As described above and in Item 9 of this report, there is minimal demonstrated demand for the development of units, other than single unit dwellings.

SUMMARY OF REMAINDER

24. DESCRIBE REMAINDER (S): (Continued.....)

The following chart illustrates the elevation of the new roadway and grade of the slope easements.

Duplex Road Center Line Station	Fill (Cut) at Centerline (Feet)	Fill (Cut) at Right Shoulder (Feet)	Remarks
136+00.00	0	0	No Slope
136+30.83 (Begin)	--	--	--
136+50.00	0	0	No Slope
137+00.00	0	1	4:1 Slope
137+05.77 (End)	--	--	--

Construction Easement: On December 17, 2014, the Federal Reserve Prime Interest Rate yield was 3.25%. TDOT is required by statute to pay 2% in excess of the Federal Reserve Prime Interest Rate to a property owner on any award above that posted on the date of acquisition. The current [November 2014] TDOT rate is 5 ¼ %. I have used a 10% rate of return per year, for an estimated 3-year construction period, as the appropriate return on the land for use as a construction easement. This equals a rate of 30% over the assumed 3-year construction period.

Improvements Acquired: This appraisal is a formal part affected report. The improvements impacted by the project were valued and improvements not impacted by the project were not valued. There were a total of two improvements impacted by the project: (1) landscaping, and (2) a 3-rail wooden fence. The calculations for these value estimates for these improvements are detailed in Item 11. The following chart illustrates the before and after values of each improvement:

	Before Value	Damages (%)	Remainder Value	Damages
Improvement 1	\$800	-	-	-
Improvement 2	\$300	-	-	-
Land	\$48,000	-	\$47,300	-
Total	\$49,100	-	\$47,300 [R]	\$0

25. Amount of DAMAGE This Page To--2A-8, Item 20-D\$0

(A) Amount of BENEFITS This Page To--2A-8, Item 20-F\$0

PHOTOGRAPHS

26.

An adequate number of photographs of all improvements acquired or damaged or of land showing and unusual features shall be included in each appraisal. (Even though there are no unusual features that would affect the land value, a minimum of one photograph is required of vacant land.) Each photograph shall be properly identified on the front or back with unalterable identification showing the following: PROJECT NUMBER, TRACT NUMBER, SUBJECT, and DATE PICTURE TAKEN.

RIGHT-OF-WAY MAP

PURPOSE OF APPRAISAL

The purpose of the appraisal is to estimate the amount due the property owner as a result of acquisition of all, or a portion of, the property for a proposed highway right-of-way project. The value estimate in this report is based on market value. See "Definition of Market Value" below.

DEFINITION OF MARKET VALUE

All estimates of value prepared for agency acquisitions shall be based on "market value" —as defined and set forth in the *Tennessee Pattern Jury Instructions* 2nd Edition to wit: "the amount of money which a purchaser, willing but under no compulsion to buy, would pay, and which a seller, willing but under no compulsion to sell, would accept, taking into consideration all the legitimate uses to which the property was adaptable and might in reason be applied".

PROPERTY RIGHTS APPRAISED

Basic underlying property rights considered herein are those of a 100% ownership position in Fee Simple, defined as: "absolute ownership, unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat." *The Appraisal of Real Estate*, 14th ed. Chicago, IL.

The proposed acquisition consists of a fee acquisition and/or easement rights for the proposed construction of a highway. The easement rights, if any, consist of the acquisition of less than fee simple title and in these cases the extent of the property rights conveyed have been considered in arriving at the estimate of value.

Any and all liens have been disregarded. The property is assumed to be free and clear of all encumbrances except easements or other restrictions as noted on the title report or during physical inspection of the property and mentioned in this report.

INTENDED USE

The intended use of this appraisal is to assist the City of Spring Hill in Right-of-Way acquisition or disposition.

INTENDED USER

The intended user of this report is the City of Spring Hill.

NOTE: If this appraisal is limited to the area affected by the acquisition for the proposed project and consists of only a part of the whole property, the value for the portion appraised cannot be used to estimate the value of the whole by mathematical extension.

Plans for the proposed construction, including cross sections of cuts and fills for the subject property, have been considered in arriving at the estimates of market value.

SCOPE OF WORK

The City of Spring Hill has requested an appraisal to estimate the market value of the property described herein for the purpose of acquisition or disposition. In accordance with the client's request, appropriate/required inspections and investigations have been conducted to gain familiarity with the subject of this report and the market in which it would compete if offered for sale.

Reliable data-subscription services have been utilized as the primary search tool for transfers of vacant land as well as improved properties. Deeds have been read and interviews with property owners and project-area real estate professionals conducted to the extent necessary to gain clarity and market perspective sufficient to develop credible opinions of use and value. Where construction costs are an integral part of the valuation pursuit, national cost services have been employed, but supplemented by local suppliers and contractors where necessary.

Applicable and customary approaches to value have been considered. Each of the traditional approaches to value has been processed or an explanation provided for the absence of one or more in the valuation of the subject property. For acquisition appraisals, furnished Right-of-Way plans have been utilized to visualize the property in an after-state where there is a remainder. Damages and/or special benefits have been considered for all remainders. As well, for acquisition appraisals, a "Formal" appraisal includes all real property aspects of the "Larger Parcel" as defined in this report or the tract as shown on the right-of-way plans, in the acquisition table, or extant on the ground at the time of inspection or date of possession. A "Formal Part-Affected" appraisal generally constitutes something less than a consideration of the entire tract, but in no way eliminates appropriate analyses, or diminishes the amount due owner had a "Formal" appraisal been conducted.

ATTACHMENTS

State Project No.	60LPLM-F2-019	County	Maury and Williamson	Tract No.	198
Federal Project No.	STP-M-247 (9)	Name of Appraiser	Randy Button, MAI, SRA, AI-GRS (CG#03)		

SCOPE OF WORK (Continued)

Acquisition appraisals are conducted in accordance with Tennessee's State Rule which asserts that the part acquired must be paid for and that special benefits can only offset damages. Further, the public improvement project or its anticipation cannot be considered in the "before" value estimate; however, when there is a "remainder", the public improvement project must be considered as to its influence on said remainder.

GENERAL LIMITING CONDITIONS & ASSUMPTIONS

This appraisal report has been made with the following general limiting conditions and assumptions:

- (1) The distribution, if any, of the total valuation in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings must not be used in conjunction with any other appraisal and are invalid if so used.
- (2) Possession of this report, or a copy thereof, does not carry with it the right of publication. It may not be used for any purposes by any person other than the party to whom it is addressed without the written consent of the appraiser and in any event, only with proper written qualification and only in its entirety.
- (3) The appraiser herein by reason of this appraisal is not required to give further consultation, testimony, or be in attendance in court with reference to the property in question unless arrangements have been previously made.
- (4) Neither all nor any part of the contents of this report (*especially any conclusions as to value, the identity of the appraiser, or the firm with which the appraiser is connected*) shall be dismissed to the public through advertising, public relations, news, sales, or other media without the prior written consent and approval of the appraiser.
- (5) The value estimate is based on building sizes and land areas calculated by the appraiser from exterior dimensions taken during the inspection of the subject property.
- (6) No responsibility is assumed for the legal description or for matters including legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated.
- (7) The property is appraised free and clear of any or all liens or encumbrances unless otherwise stated.
- (8) Responsible ownership and competent property managements are assumed.
- (9) The information furnished by others is believed to be reliable. However, no warranty is given for its accuracy.
- (10) All engineering is assumed to be correct. The plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.
- (11) It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them.
- (12) It is assumed that there is full compliance with all-applicable federal, state and local environmental regulations and laws unless noncompliance is stated, defined, and considered in the appraisal report.
- (13) It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless nonconformity has been stated, defined, and considered in the appraisal report.
- (14) It is assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
- (15) It is assumed that the utilization of the land and improvements is within the boundaries or property lines of the property described and that there is no encroachment or trespass unless noted in the report.
- (16) Unless otherwise stated in this report, the appraiser did not observe the existence of hazardous material, which may or may not be present on the property. The appraiser, however, is not qualified to detect such substances. The presence of substances such as asbestos, area-formaldehyde, foam insulation, or other potentially hazardous materials may affect the value of the property. The value estimate is predicted on the assumption that there is no additional materials on the property that would cause a loss in value. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them or the costs involved to remove them. The appraiser reserves the right to revise the final value estimate if such substances are found on or in the property.
- (17) The public improvement project or its anticipation cannot be considered in the "before" value estimate; however, when there is a "remainder", the public improvement project must be considered as to its influence on said remainder(CFR, Title 49, Subtitle A, Part 24, Subpart B, Sec. 24.103(b)).
- (18) This appraisal contains a hypothetical condition that the subject roadway project will be constructed according to plans and cross sections referenced in this report. The use of this hypothetical condition might have affected the assignment results.
- (19) Applicable to Formal Part-Affected type of appraisal – when all the land area and/or all improvements are not appraised this is considered a hypothetical condition. The use of this hypothetical condition might have affected assignment results.

State Project No.	60LPLM-F2-019	County	Maury and Williamson	Tract No.	198

CERTIFICATE OF APPRAISER

I hereby certify that to the best of my knowledge and belief:

- (1) That I have made a personal inspection of the property that is the subject of this report and that I have also made a personal field inspection of the comparable sales relied upon in making said appraisal. The subject and the comparable sales relied upon in making said appraisal were represented by the photographs contained in said appraisal and/or market data brochure.
- (2) The statements of fact contained in this appraisal are true and correct.
- (3) The reported analysis, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, unbiased professional analysis, opinions, and conclusions.
- (4) That I understand that said appraisal is to be used in connection with the acquisition of right-of-way for a highway to be constructed by the City of Spring Hill with ☒ without ☐ , the assistance of Federal-aid highway funds, or other Federal funds.
- (5) That such appraisal has been made in conformity with the appropriate State laws, regulations and policies and procedures applicable to appraisal of right-of-way for such purposes; and that to the best of my knowledge no portion of the value assigned to such property consists of items which are non-compensable under the established law of said State.
- (6) That any increase or decrease in the fair market value of real property prior to the date of valuation caused by the public improvement for which said property is acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to physical deterioration within the reasonable control of the owner, will be disregarded in determining the compensation for the property.
- (7) That my compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors that cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- (8) I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- (9) That I have not revealed the findings and results of such appraisal to anyone other than the proper officials of the City of Spring Hill and I will not do so until so authorized by City of Spring Hill officials, or until I am released from this obligation by having publicly testified to such findings.
- (10) Adam L. Hill (Registered Trainee #4698) provided significant real property appraisal assistance to the person(s) signing this certification. Mr. Hill assisted in the compilation of the Market Data Brochure, property inspections, communications with property owners, and in compiling this report.
- (11) That my analysis, opinions and conclusions were developed, and this report has been prepared in conformity with the Uniform Standards of Professional Appraisal Practice.
- (12) I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- (13) I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- (14) My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- (15) To the best of my knowledge and belief, the reported analysis, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and the Standards of Professional Practice of the Appraisal Institute.
- (16) As of the date of this report I, Randy Button, MAI, SRA, AI-GRS, have completed the requirements of the continuing education program of the Appraisal Institute. The use of this report is subject to the requirements of the Appraisal Institute relating to the review by its duly authorized representatives.
- (17) THAT the OWNER (Name) Andrew Long was contacted on (Date) 11/20/2014.

☐ In Person ☐ By Phone ☒ *By Mail, and was given an opportunity for he or his designated representative

(Name) Andrew Long to accompany the appraiser during his or her inspection of the subject

property. The owner or his representative Declined ☐ Accepted ☒ to accompany appraiser on (Date) 12/16/2014.

If by mail attach copy to 2A-12

Date(s) of inspection of subject December 16th, 2014

Date(s) of inspection of comparable sales October 17th, 2014 & February 6th, 2015

- (18) That the centerline and/or right-of-way limits were staked sufficiently for proper identification on this tract.
- (19) That the roadway cross sections were furnished to me and/or made available and have been used in the preparation of this appraisal.
- (20) That my opinion of the fair market value of the acquisition as of the 16th day of December, 2014.

is \$1,800 Based upon my independent appraisal and the exercise of my professional judgment.

November 20, 2014

ANDREW C LONG
2915 Sams Ct
Spring Hill, TN 37174

Dear Property Owner,

I have been engaged to perform a real estate appraisal on a property shown to be in your ownership. The purpose of this appraisal is to establish a basis for possible compensation related to the acquisition of a portion of your property resulting from the widening of Duplex Road (S.R. 247)/State Project 94092-1224-14.

This letter is to afford you, or your representative, the opportunity to accompany me during my inspection of:

- Tract 198: 2915 Sams Ct, Spring Hill, TN 37174 with a site containing ± 0.281 acres of land. This tract is also known for tax purposes as Tax Map and Parcel 166P-A-12.00

Since the above referenced parcel(s) will be impacted by the public right-of-way improvement project, a land surveyor will be placing wooden stakes in your yard to indicate the impacted areas.

Please contact my office within the next fourteen (14) days to schedule an appointment for us to come to meet you or your representative at the above referenced property. During this visit I will provide you with information, and explain how this project will affect your property. Also we can go over what the surveying stakes mean and as we perform our inspection of the area affected by acquisition. Please do not remove the stakes until we are able to come to your property.

To ensure that we establish a date and time of mutual convenience, please call or text Adam Hill at 615-348-7980. We are happy to schedule a convenient time to meet with you. Our office will be closed December 1 – December 5th. If you leave us a message please provide your name, a good number and time for us to return your call, your preferred time to meet with us, and that you are calling about Tract No. 198.

Sincerely,

Randy Button, President
