DEPARTMENT HEAD: Kevin Fischer,

STAFF MEMORANDUM

PURPOSE

Request to approve a change order for Port Royal Park to add additional electrical service to provide easier electrical access to other areas of the park. Additional plugs will be added to a light pole adjacent the concession building and additional plugs on the east side of the concession building.

FINANCIAL IMPACT

The cost of the change order is \$2,198.00. Currently the project has \$4,849 in valued engineered savings.

STAFF RECOMMENDATION

Favorable Recommendation – The additional electrical service will be beneficial during special events, movie nights and other needs that may arise. This will help maintain a safe environment and limit the number of extension cords that would normally have to be ran from the concession building. It would also allow for larger power usage for things that would require greater power loads.
