STAFF MEMORANDUM

TO: Board of Mayor and Aldermen
FROM: Kyle Therriault, Purchasing Agent
DATE: 12/15/2025
SUBJECT: Resolution 25-297 – Water Reclamation Centrifuge

RECOMMENDATION:

Finance recommends that the Board approve Resolution 25-297 to satisfy the requirements of the American Rescue Plan (ARP) funding and authorize the purchase of long-lead items for the Water Reclamation Centrifuge. This will ensure project timelines are maintained and support the City's efforts to meet increasing Water Reclamation demand.

BACKGROUND:

The City is required to formally award bids by December 15, 2025, to comply with ARP funding requirements. At staff's direction, these funds are being used to purchase long-lead items for the Water Reclamation Centrifuge, mitigating the risk of delays and ensuring continued progress on the project.

FINANCIAL IMPACT:

Funding for this project has been allocated in the Wastewater Treatment Plant Division (410) and poses no risk to the approved budget.
