A diverse Board with a variety of interest and skills provides a broad base knowledge for decision-making. What training, experience, or special skills would you bring to the Library Board to assist in planning policy, legal, legislative, or financial decisions?

In my position of Director of Grant and Scholarship Programs I administered state funds for over \$70 million dollars. In doing so I had to be knowledgeable of state and federal laws and F&A procedures regarding the funds I administered. I was involved with the Legislative process in rule changes and implementation any changes made. And was responsible to be sure that were followed.

I talked to students and parents daily regarding the application process for applying for financial aid in the State of Tennessee. I have made presentations to students and parents across the state and to financial aid administrators at the state conference. I have been awarded the Distinguished Service Award and the Life Time Membership for my service.

I have also made a comment to Spring Hill as shown by my involvement in various organizations and events that have been held in Spring Hill. Since my retirement I have more time to be active in the Spring Hill community.

Why do you wish to serve on the Library Board?

Serving on the Library Board would give me the opportunity to once again show my support to the continued growth of the Library and make the Library the BEST in the State of Tennessee!

If appointed to the Library Board, what would you like to see accomplished during your term?

I would of course like to see the completion of the expansion of the Spring Hill Library. I would also make every effort to see that any and all opportunities available are utilized to continue to improve the Library.

What do you think is the Library's most important roles are for the community?

Libraries in the past were thought of as a place to go to check out a book. However with the age of electronics that has changed. The Library is still a place to check out a book, but also a place of information from all avenues. You now have programs for children, parents, seniors and most of all avid readers. It is a place where a citizen can go and be directed to a book or internet site for that information. It is a place where parents may bring their children and have the experience of reading a book together. It is a place where the world comes to you!

The community library is the jewel of a community and it is FREE!

What are some problem and challenges facing libraries?

As with everything today, funding is a major challenge. To make Spring Hill Library funding is critical and cannot be ignored.
