STAFF MEMORANDUM

Compound meters are available to be purchased and installed within the city's water system. The ordinance and any relevant changes currently do not include these meters. Therefore, staff requests all sizes available be added along with their associated charges for the actual meter fee and the tapping fee.

Costs associated with the meter fees are established by National Meter & Automation (Badger) who we purchase our meters from. Meters are paid for by a builder when a building permit is pulled from the Codes department.

Staff requests approval of this resolution.
