Department Budget Status:

- I. Purpose/Overview: To purchase for replacement of Firefighter structural firefighting protective clothing during fiscal budget year.

- II. Background Information: The fire department is allocated funding for structural firefighting protective clothing each fiscal budget year. Due to wear and tear of current turnout gear worn, firefighters replace turnout gear every 5 years. We advertised a RFP, and two vendors responded, Safe Industries and MES. We based the selection on pricing, service and quality of turnout gear. This will include all new hires each year to outfit the new firefighters with full gear.

- III. Financial Impact to Budget. \$46,500 budgeted for this equipment.

- IV. Alternative Options: another vendor.

- V. Staff Recommendations: It is recommended to award uniform purchase contract to Safe Industries, based on pricing, service provided, and quality of product.
