--------------------------------------	---

Anyone with health concerns, or who has concerns about the health of a family member, is invited to come to one of these locations this weekend to receive testing for COVID-19. This testing will be provided at no cost to participants, and those who come for testing can remain in their vehicles throughout the process of collecting their samples.

Nurses and/or National Guard medics at each site will collect nasal swabs from those who want to be tested, and test results may be available within 72 hours after the samples arrive at the lab, depending on lab volume.

Information will be provided at the testing locations on what participants can expect after being tested. This information is also available at:
